INNOVATION SETS US APART

PATENT-PENDING DUAL BAND UV LED TECHNOLOGY

Our patent-pending dual-wavelength UV light is scientifically proven to enhance attraction with flying insects. No other product uses this targeted frequency technology for Zappers and Traps.

LONG-LASTING LED FOR UV LIGHT SOURCE

We're the only leader in insect defense brands that uses LEDs for all of our UV attractant products. LED UV is proven to have significantly longer life than the fluorescent tubes used by our competitors with a lifespan of over 50,000 hours vs 2,000 hours of competitors.

VERTICAL GRID DESIGN

Our innovative design utilizes a vertical grid system which makes the unit more efficient, cleaner and easier to clean.

PROPRIETARY ESSENTIAL OIL REPELLENT FORMULA

Our proprietary repellent formula is the only wearable repellent made of all-natural essential oils that isn't dominated by Citronella. Our ingredients have been proven to be more effective than Citronella alone at repelling mosquitoes. (Ingredients: Geraniol, Lemongrass oil, Citronella oil.)

ADVANCED BAIT ATTRACTANT FORMULA

Unlike our competitors who use sugar, yeast and salt as toxic bait for their bait traps, we offer a better, proprietary blend of sugar, yeast and garlic. The proven effects of garlic on mosquito control, combined with our proprietary dual UV attractant technology, make our bait stations more effective.

CONSUMERS WANT A SAFER OPTION

81%

of consumers say mosquitoes are an annoying problem or a complete nuisance when they are outdoors.

62%

of consumers use mosquito defense products fairly often or everytime they are outside.

62%

of consumers agree that mosquito repellents are unpleasant but necessary to enjoy the outdoors.

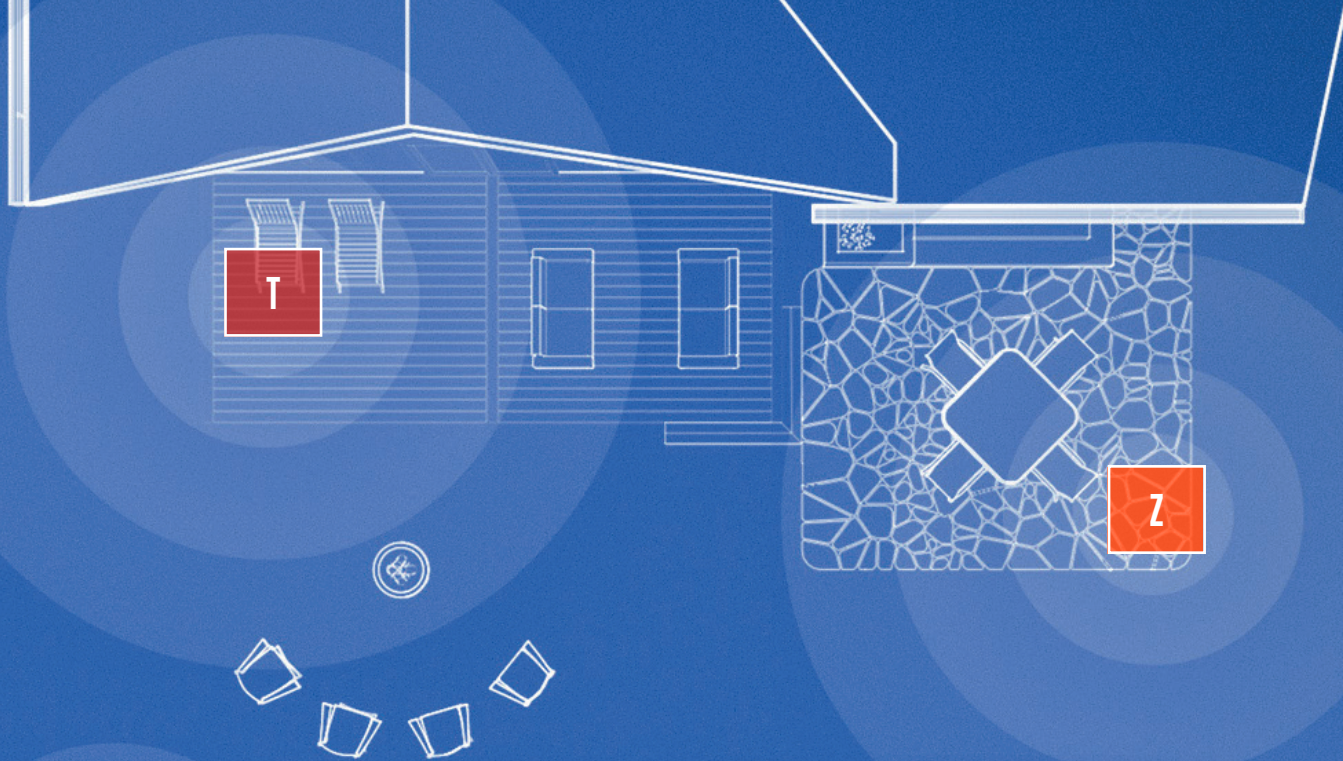

What consumers consider to be the most important when purchasing mosquito defense products*:

- #1 is effective
- #2 doesn't contain harsh chemicals
- #3 uses all-natural ingredients

LAYERS OF PROTECTION

With SKEETER HAWK, you get layers of proven protection - to keep you mosquito-free, without any harsh chemicals or open flames. Whether you are on your patio or hiking in the woods, SKEETER HAWK is with you everywhere you go.

WEARABLES

REPELLENTS

WEARABLE REPELLENTS

► Our wearables feature a proprietary blend of natural ingredients to repel mosquitoes and flying insects. Both wearables have a reflective logo and lettering for increased visibility. For the bracelet, a durable, reusable hook and loop closure allows for customized fit, while the stainless steel carabiner quickly attaches to a backpack or belt loop. The replaceable repellent tab has a life of 30 days.
