Sustainability - the way forward

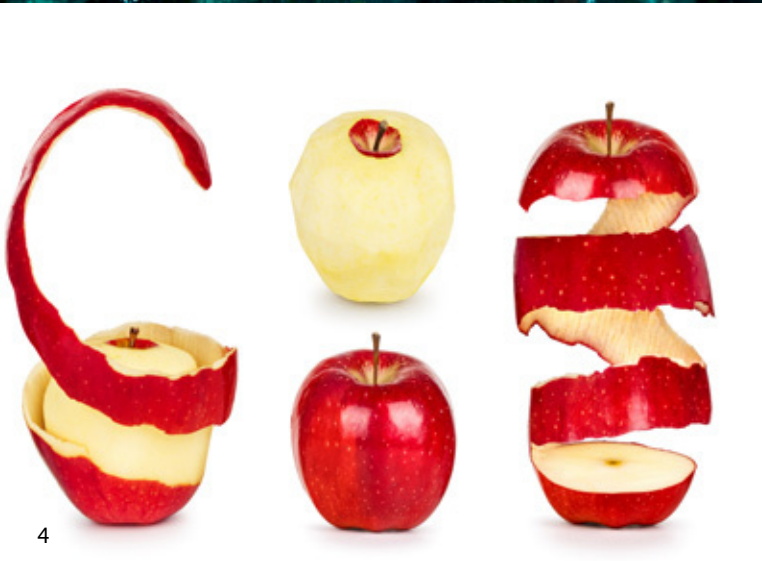

NEW

Vegan Apple Leather Edition

TRU VIRTU SLIM TRACK

NEW

The innovative Bluetooth Tracker for your wallet

OUR PHILOSOPHY

Safety and protection of personal data and documents come first in relation to our TRU VIRTU® products.

The TRU VIRTU® product philosophy stands for the development of innovative and functional products with protectoral functions combined with a distinctive design and high quality.

In the process, high-quality materials such as anodized aluminium and genuine Italian leather are being used. This is what makes TRU VIRTU® products extremely robust but light at the same time and that is how new product characteristics and functions, e.g. RFID-protection, can be realized.

By introducing Apple Leather we are embracing sustainability as part of our brand ethos.

This year we started to turn plastic bottles into vegan wallets.

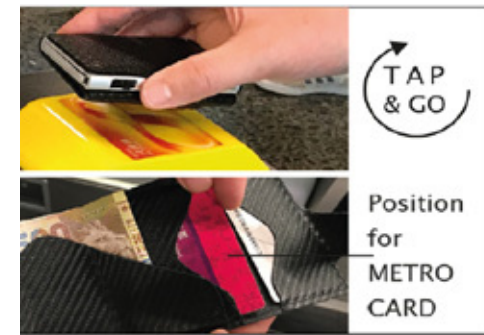

We are using recycled materials that are eco-friendly as well as animal-free.

Our high-quality aluminium has a recycling content of up to 50%.

TRU VIRTU® - **Reduced to the Max!**® means maximum functionality at minimum size.

AWARD WINNING PRODUCT

PROTECTION SYSTEM

TRU VIRTU® HI-TECH WALLETS protect cards from:

- illegal scanning of personal data (RFID/NFC-Scanning)
- demagnetization
- outside influences (splash water, sand, snow) and mechanical load

TRU VIRTU® products meet the highest safety standards and were successfully tested according to the „GSA-Opaque Sleeve” method and TÜV certification.

SLIM WALLET CONCEPT

Unlike traditional wallets your TRU VIRTU® wallets stay constantly flat and do not put on size – even if you fill it to the maximum.

RFID))) - PROTECTION

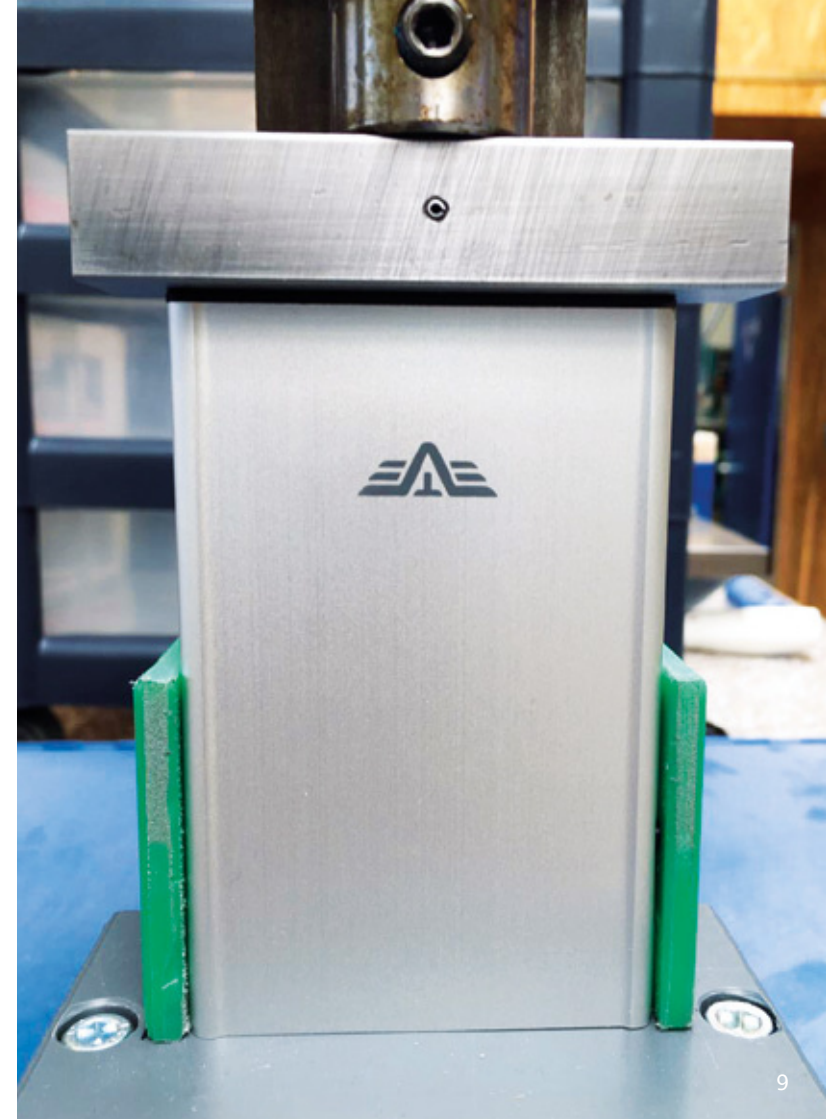

MADE IN GERMANY

German engineering, functionality and product quality combined with the beauty and tradition of genuine Italian leather to create unique products in mini pocket format. TR VIRTU - Reduced to the Max!

All products are developed and produced exclusively in Germany. In close cooperation with more than 20 suppliers our card cases and wallets are produced in Berlin.

We are particularly proud of the fact that it is people with disabilities who succeed in producing these technically sophisticated card cases and wallets by hand, while maintaining social and ethical standards and working conditions and under high quality requirements.

Our high-quality aluminium has a recycling content of 50%. Protecting our environment does not mean sacrificing product quality. We do our part to integrate sustainability into everyday life.

ITALIAN LEATHER

All our leathers are carefully selected and come from tanneries in Italy. These tanneries are mostly family businesses, who have a long tradition and have developed enormous skills and workmanship in treating this natural product until it becomes the trendy and elegant leather, you will find in our products.

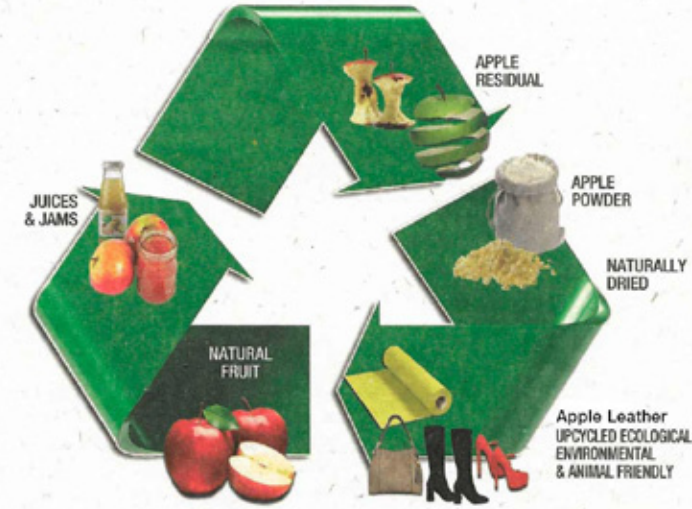

Our collection combines the best of both world's: Patented technology "Made in Germany" & Genuine Italian Leather. This creates the unique product experience.

VEGAN APPLE LEATHER

Apple leather is an innovative, versatile and high-performance material made of apple pulp from the juicing industry. This new material allows us to develop high quality new products that are not just functional but sustainable as well.

By choosing Apple Leather for our products, we are choosing the environment.

CLICK & SLIDE Card Case

The patented „CLIKE & SLIDE“ technology developed and made in Germany offers extremely fast access to the most important cards. With just one „click“, triggered by a press with the finger, the cards are spread out in a fan-like manner. The well-known TRU VIRTU® profile with the characteristic design ribs and the use of high-quality materials, leads to a high stability and strength. Developed for minimalists with the highest standards.

The patented TRU VIRTU® CLICK & SLIDE card case offers protection for max. 5 cards (mix 4 embossed & 1 flat) against illegal data theft of NFC / RFID chips and demagnetization.

CLICK & SLIDE WALLET Vegan Apple Leather

NEW

With the innovative eco-friendly apple leather, our Click & Slide Apple Leather collection allows you to enjoy a high quality, functional product while embracing sustainability in everyday lives. Playing a part in caring for our planet.

Apple leather is an innovative, versatile and high-performance material made of apple pulp from the juicing industry.

The apple leather we used are made from Italian apples grown in the northern part of Italy. This sustainable material is produced by taking the apple waste from the juicing industry and transforming it into a new form of vegan leather.

The Apple Leather is also highly durable, which means your Click & Slide apple leather wallet will withstand the test of time.

TRU VIRTU Recycled PET FELT

We turn plastic bottles into vegan wallets

The vegan leather of this wallet is a revolutionary, eco-friendly and sustainable material. It consists of recycled polyester fibers from post-consumer plastic bottles.

This material substitutes other raw materials of chemical origin in the product, lowering emissions and the consumption of energy through the entire production chain. Our contribution in reducing plastic ending up in our oceans is by using recycled material for our wallets. By choosing recycled PET material for our Products, we are Choosing the environment.

Stay connected with TRU VIRTU SLIM TRACK

NEW

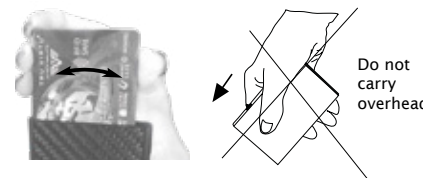

The following user manual gives you a short instruction to handle your Click & Slide correctly. Please read carefully, before you start using your Click & Slide.

Activate your wallet

To allow a proper operation, your brand-new wallet should be activated as follows:

- Push 3-5 cards together halfway into the card case
- Move/press them about three times in both directions against the stopper (black rubber)

1. Load Cards

Push max. 5/
min. 3 cards
down all
together
until they
"click"

2. Secure Cards

Push button
upwards
for locking
of cards

3. Release Cards

Push button
down - cards
will slide
out in a
staggered
way

- For max.5 / min.3 bank cards (mix of max. 4 embossed + 1 flat card)
- Insert cards only all together, not one by one
- Use only original(credit/debit) bank cards
- Due to deviations in card dimensions, single cards might fall out/jam
- Shaking the case overhead is not part of a "normal" usage
